Work Experience

Program Director, Technology, Service, and OTL

Lehi, Utah

Mountainland Technical College, July 2022 - Present

- Directed the strategic planning and execution of 11 academic and technical programs, ensuring alignment with institutional goals and industry standards.
- Managed and supported faculty development through evaluation, professional development scheduling, and mentoring, enhancing instructional quality and effectiveness.
- Oversaw compliance with accreditation standards, including organizing advisory committee meetings and ensuring adherence to benchmarks for completion, placement, and licensure.
- Collaborated with cross-departmental teams and external partners to expand program offerings, integrate feedback from stakeholders, and maintain cutting-edge educational experiences.

Director, Office of Teaching and Learning

Lehi, Utah

Mountainland Technical College, February 2022 - June 2022

- Maintained and provided support for educational software including Canvas, Bridge, Simple Syllabus, Impact, H5P, and Kaltura.
- Created and implemented professional development and instructional design resources for college faculty.
- Facilitated the transition of multiple programs to a course based system.

Mobile Development Coordinator

Lehi, Utah

Mountainland Technical College, August 2017 - February 2022

- Implemented curriculum to prepare students to enter the job force.
- Organized a learning management system to track student progress and grades.
- Mentored developers coming from industry, with limited teaching experience, to teach programming concepts in the classroom.
- Made connections with industry professionals to promote students for externships and to find full-time positions.
- Worked with an advisory committee to stay relevant with industry standards.
- Restructured program to enable students to have a more successful learning experience, by developing classroom and self-guided projects.
